SARTORI RUGS

Australian exclusive

CATTELAN ITALIA

Concept studio launch

CLAREMONT HOME

Mixing heritage with contemporary living

Welcome...

A mad dash to the finish line last month saw the re-opening of the CO2 Studio at Ultimo, the opening of the new Cattelan Italia Concept Studio and the launch of three new collections exclusive to Ultimo: ROYAL BOTANIA Belgian outdoor furniture, FLAI design compliments, and SARTORI rugs.

Never ones to take a launch lightly, we squeezed in new designs from Hulsta, Varaschin and new prototype lighting from ATH Studio as well to create an evening of experiences for our clients. Absolute highlights include the groundbreaking Origami sofa from CO2 which arrived complete with origami expert Melanie Gray creating a chandelier of cranes with our guests.

Special thanks to all our clients who joined us on the night and to all our suppliers and installers who made everything from sea sponge dioramas to three dimensional suspended ceilings take shape for the launch! Full of exciting new displays, we hope to welcome you to the new Ultimo over the festive period.

Warm wishes for a happy and safe holiday season from the Ultimo Team.

Sartori

italian designed

Rugs

Sartori Rugs have been using traditional hand dyeing methods to make their pieces truly unique and world famous since 1881.

Made by reusing vintage carpets, Sartori bring life back to each piece to become contemporary works with cultured back-stories.

Frequently visiting the carpet bazaars of Iran, Turkey and Pakistan to source traditional rugs that will produce the most characterful end product, Sartori distress the original patterns to create 're-collections'. Rugs are decoloured by the sun, then re-

died by hand in contemporary vibrant colours characteristic of Sartori's work - brilliant and rich blue, green, red and purple dyes, alongside more neutral browns, greys and black.

After air-drying the carpets are expertly cut and reassembled, then hand stitched to create a new original piece.

The HIRST rug is a limited edition piece, and references the famous dot paintings of Damien Hirst.

Ultimo Interiors currently houses Australia's only range of Sartori rugs exclusively.

CUTARO Bed

an enchanting piece

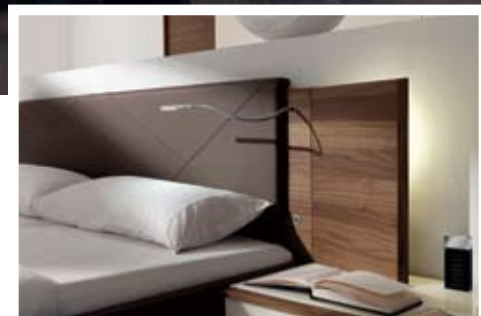

Stunning wood or lacquer finishes with leather accents and beautifully crafted detail make the CUTARO an enchanting piece. Presented at Milan 2011, the CUTARO bed will soon be on display at Ultimo Interior's newly refurbished showroom.

A para-vent style headboard with leather overlay takes its place regally at the head of the bed, with delicate finer details such as the decorative leather seams which cleverly match the diagonal lines of the CUTARO design. For a cleaner look you can choose these seams in the same straight lines found on the foot of the leather bed frame. Two swan-neck LED lights sit at his and her sides, with additional ambient lighting floating across the width of the headboard panel.

Shadow gaps underneath the bed and consoles create a floating effect, giving the CUTARO an undeniably seamless presence in the bedroom.

Choose combinations of Light Brown Ash, Core Walnut, or high gloss lacquers in White and Sand, with matching leathers.

STRIPES

Constructed from a series of mirror bands alternating in width, length and end cut angles, the result is a gorgeous feature piece that oozes luxe.

STRIPES mystical appeal is in the fragments of reflections as they dance across the mirrored panels.

SYLVESTER

This chaise longue designed by Leonardo Dainelli is pure luxury. Smooth organic lines cascading to the floor with a seat of silk or soft leather.

GOTHAM

GOTHAM masters angles and crisp, modern dining. Four protruding arms of a central column create the leg structure. The arms are uniquely cut and angled to capture light and create a metallic kaleidoscope effect.

Ultimo Interiors have launched Australia's first Cattelan Italia Concept Studio after completing extensive renovations to accommodate all the pieces meticulously selected in Milan 2011.

Italian manufacturers Cattelan Italia infuse luxe living with state of the art design and quality materials, resulting in innovative products with a strong visual impact and design longevity within the home.

Cattelan *Italia*

The dedicated studio is the first of its kind for Cattelan Italia in Australia. Housing such pieces as the **GOTHAM** dining table, **ARTIC** lamp, **SYLVESTER** chaise longue and **GLOBUS** coffee table, the Cattelan Studio at Ultimo Interiors will undoubtedly impress.

A broken white sphere characterised by charming desultory etchings gives the **ARTIC** lamp its unique identity and charm.

ARTIC

KAYAK

Reflective angles of **KAYAK's** attention seeking doors with high gloss polished lacquer aren't its only stunning possessions. The sideboard is also fitted with sleek clear glass shelving in the interiors.

GLOBUS

"I loved this table instantly at this years Milan show, on several accounts. It builds on a classic design that Giorgio Cattelan penned many years ago and takes it to another level. Initially the Globe coffee table, a simple metal sphere suspending the waterfall glass top, the new sphere is carved and formed like an ice sculpture adding depth and texture variations to an already classic piece." *Andrew Thornton Hick*

Claremont Home

This stunning 1900's federation home in Claremont has been renovated and extended by its owners, a couple who have a passion for old homes and conserving heritage within the community.

Designed by award-winning architect Joe Chindarsi, the new extension has transformed the home into a 4x3 with open plan kitchen and dining, and an outdoor area with sunken entertaining area, lap pool and outdoor kitchen.

Andrew Thornton Hick, interior designer at Ultimo Interiors, designed the gorgeous interiors with feature furniture pieces by Hülsta, Rolf Benz, xO - Philippe Starck, Cattelan Italia, Varaschin and Calligaris - all available at Ultimo Interiors.

His choices achieved a seamless connection between the old and the new elements of the house, with a clever mix of contemporary and antique pieces.

"The principle brief was to furnish the home with luxury in a way that unified it's two faces instead of dividing them. Pulling colours from lead lights into artwork, mixing contemporary German upholstery from Rolf Benz with some of the owners antique pieces, and fusing different cultural influences made this project a joy to create."
